

**Careers** Work for one of the leading credit card processing and prepaid service providers in the nation. 

At NuMoney, employees are not considered our “number one assets”. Assets are owned and they can’t leave you. Employees can leave and will if not nurtured. Our employees are considered our *greatest resources*. We value their opinions, knowledge, skills and abilities. The result is an environment of entrepreneurial thinkers that work together and learn together everyday.

We expect our employees to grow with us and we build career opportunities based on that. We look to promote people from within based on initiative, performance and passion in what they do. We believe that if we take care of our employees, we will be better at taking care of our customers.

***NuMoney is a Great Company to grow with!***
